

120 Classic Acrylic Gap Sealant

Water-based Acrylic Latex Gap Sealant

It is a cost-effective, water-based acrylic latex gap sealant formulated for interior general-purpose sealing applications. It is paintable and provides good adhesion to most substrates.

Paintable	Easy Application	Easy Clean Up	Non-Sag	Low Odor	Slight Elasticity	Porous - OK

It can be **Painted** over to match the surrounding surface.

This allows filled gaps and joints to **blend seamlessly** into the final painted finish.

The smooth, **water-based formulation** allows for easy application and smooth dispensing.

It can be **tooled** effortlessly with a **finger or spatula** to achieve a neat, professional finish.

Excess sealant can be easily **cleaned with wet cloth** before it cures.

This helps keep **tools, surfaces, and the work area clean** during application.

The **non-sag formulation** prevents the sealant from **slumping** after application.

Joints remain well filled and neatly finished, even on **vertical surfaces**.

The formulation produces **minimal odor** during application and after cure.

This helps maintain a more **comfortable indoor** working environment.

The cured sealant maintains **slight flexibility** to absorb small **movements in gaps**.

This helps reduce the **risk of cracks** appearing along the sealed joint.

Formulated for good adhesion to **porous substrates** such as plaster, concrete, and wood.

This enables **effective sealing** of joints and gaps in common building materials.

Code	Description	Color	Content	Packing
120	Classic Acrylic Gap Sealant	White	450 g / Cartridge	24 Cartridges / Carton

Applications: It may be used for sealing **interior gaps** and **joints** where **slight movements** are anticipated (less than **+/-12%** of joint width), such as door and window perimeter, cabinet and wardrobe, floor skirting board, architrave, cornice, wainscoting, soffit, drywall, insect screen, security mesh door, decorative panel, etc. Suitable for **various substrates**: concrete, metal, PVC / uPVC, wood, gypsum boards, FRC boards, marble, ceramics, tiles, painted surfaces; etc.
