

102 Multi Purpose Silicone Sealant

Acetoxy Silicone Sealant

A one-part, versatile, acid-curing silicone sealant formulated for general glazing and sealing applications, where long-term durability is required.

It will cure under the action of atmospheric moisture and form an elastomeric silicone sealant rubber that is waterproof. Its adhesion on most substrates is excellent, and it will not crack or harden even exposed to extreme weather.

Code	Description	Color	Content	Packing
N102T240	Multi Purpose Silicone Sealant	Translucent	240 ml / cartridge	24 cartridges / carton
N102B240		Black		
N102G240		Grey		
N102W240		White		

Applications: Suitable for general glazing, weather sealing, gap filling, and waterproof sealing applications on a wide range of substrates, including glass, aluminium, stainless steel, ceramics, painted surfaces, and non-oily wood. Ideal for use in residential, commercial, automotive, and industrial sealing applications.
